1.5 The required knowledge was...

1.6 In did not have knowledge regarding:

- Physics
- electroacoustics, binaural synthesis

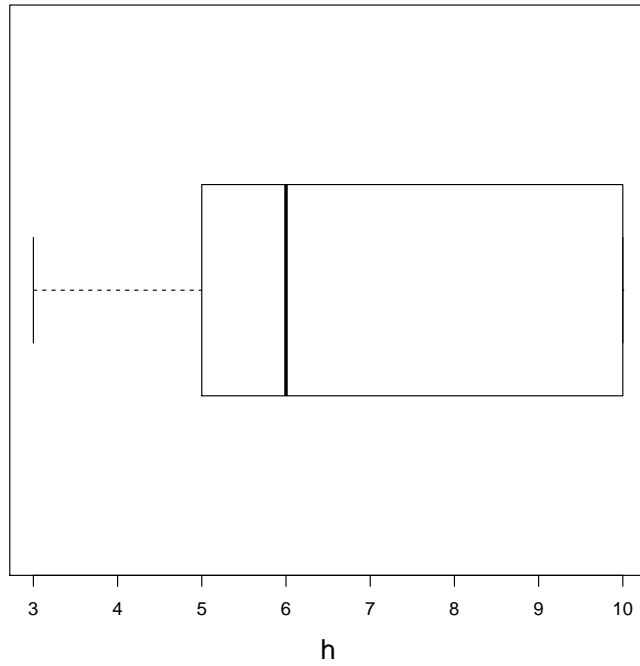

1.7 The proportion of the appointments I was present is approximately...

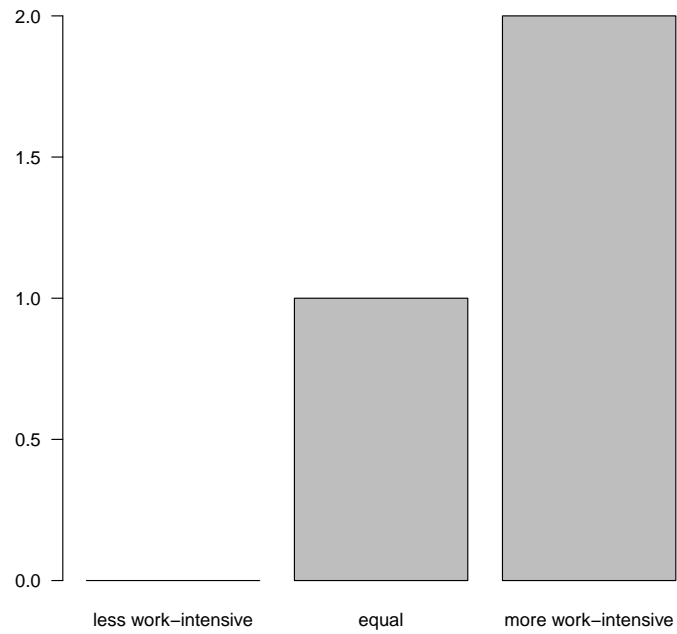

1.8 I was not always present, because:

- I missed the schedule at the beginning; I was absorbed by some detail of the topic due to personal interest
- I stopped taking the course due to the overproportionate amount of work required

1.9 The weekly expenditure of time i required for this course in addition to lectures and exercises is approximately...

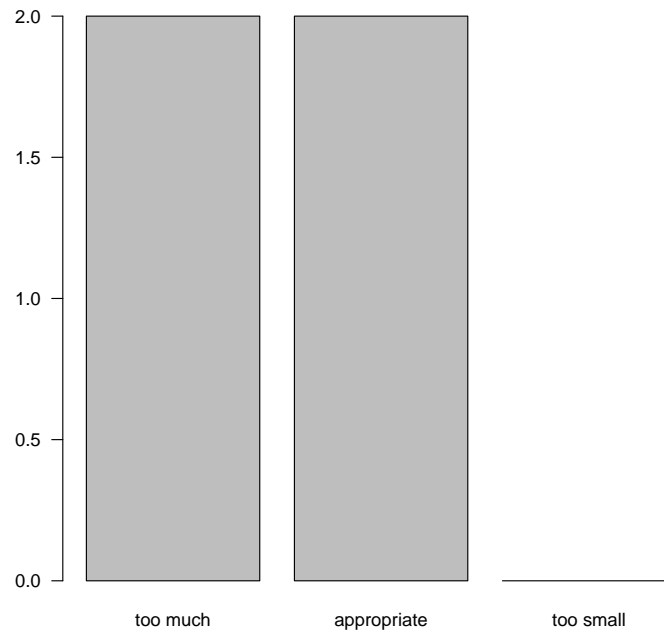

1.10 Compared with other courses this course was...

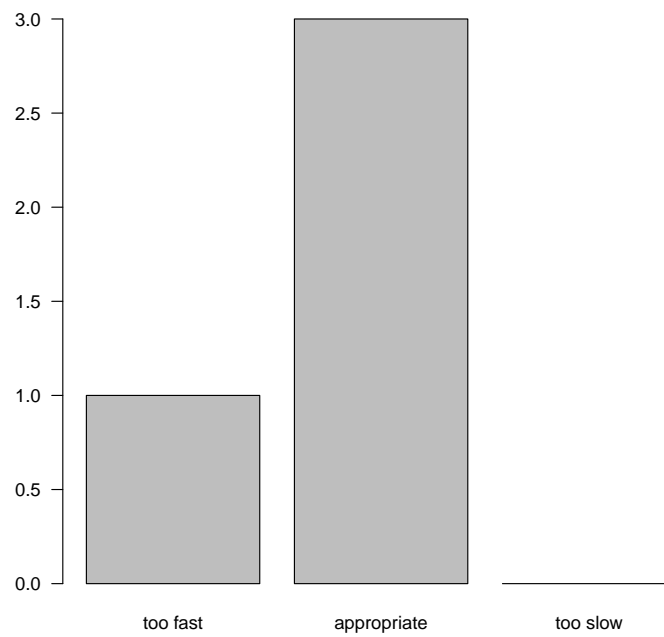

2 Theoretical part / Course

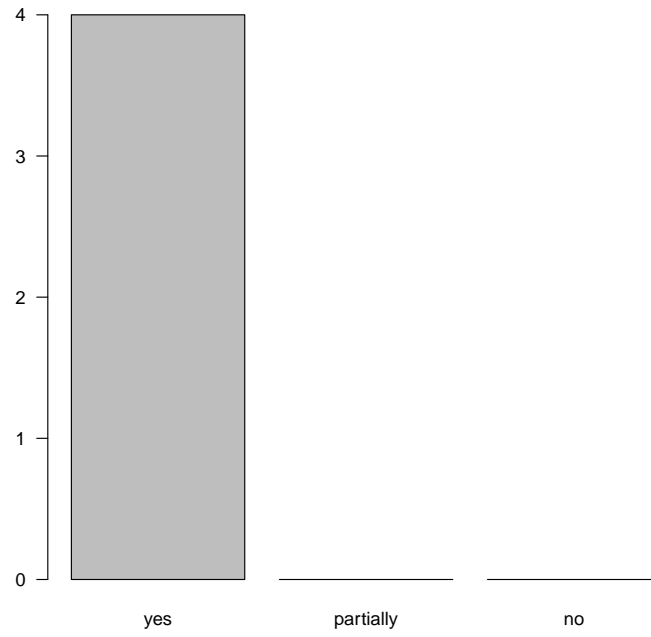

2.1 The amount of content to learn in this course was...

2.3 The course gave me an actual overview of the topic.

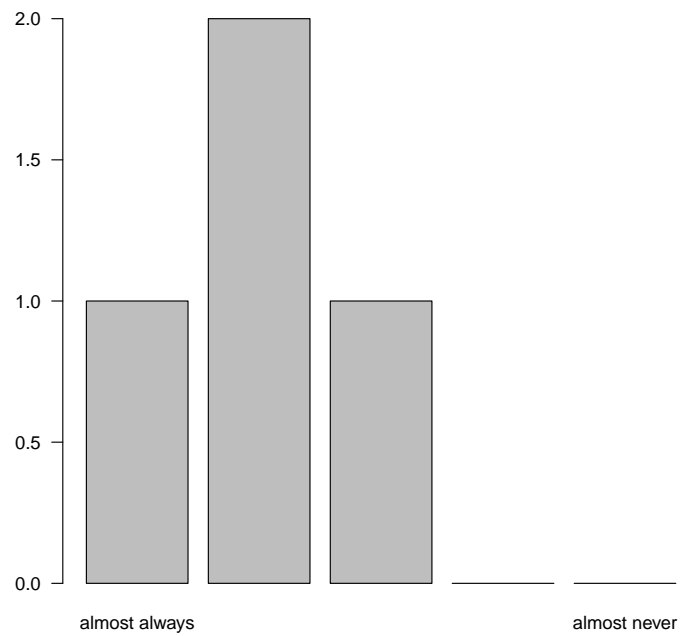

2.4 The lecturer could raise interest in the topic.

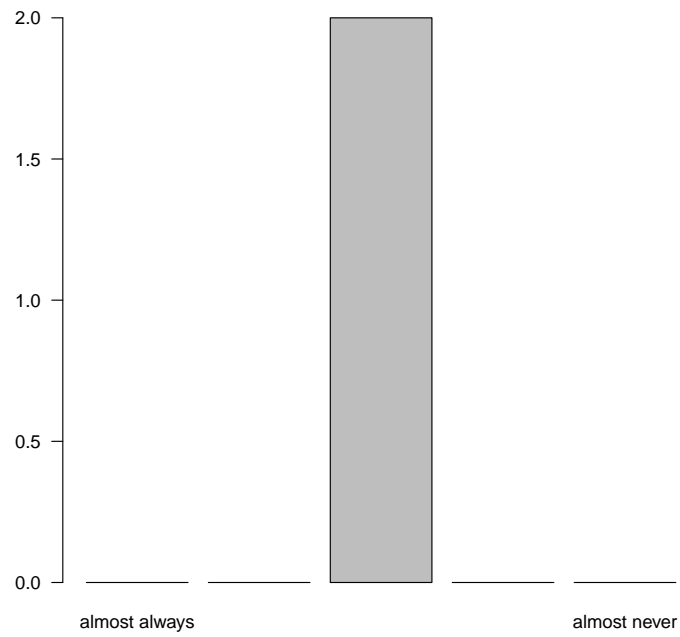

2.5 Everything was presented in an understandable way

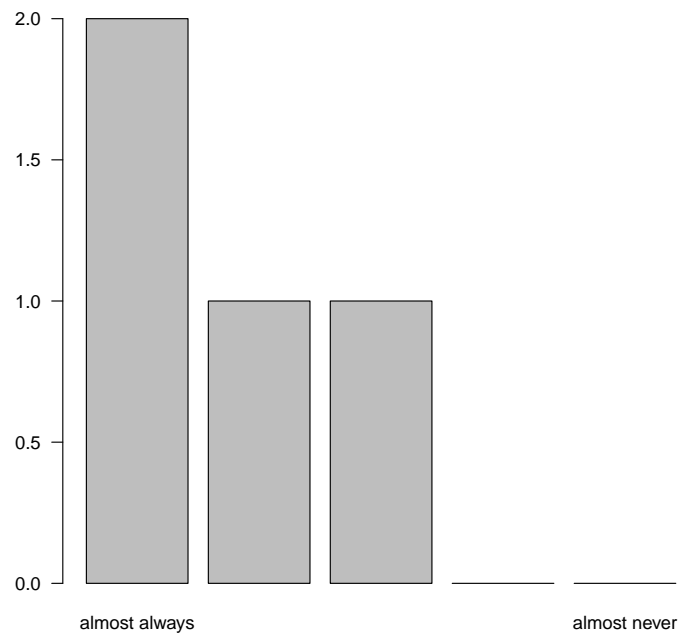

2.6 Interdisciplinary connections were obvious.

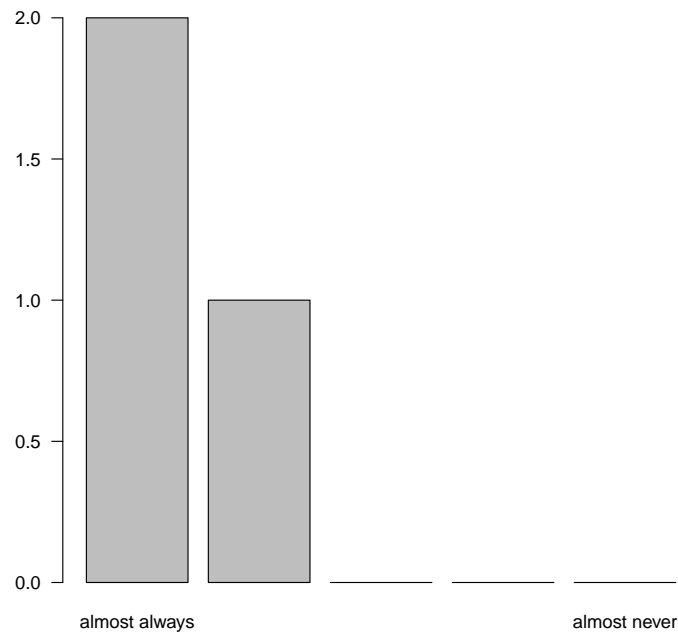

2.7 Questions were answered in an understandable way.

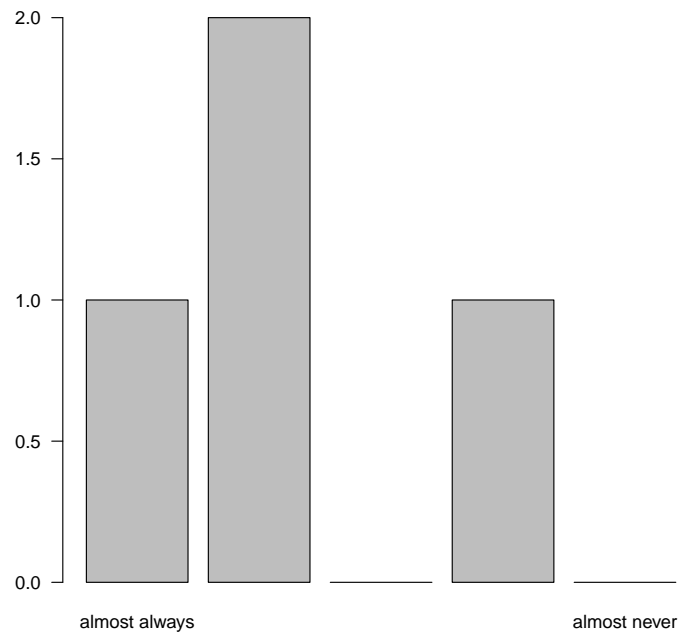

2.8 Examples helped to understand.

2.9 The practical relevance of the substance was recognizable.

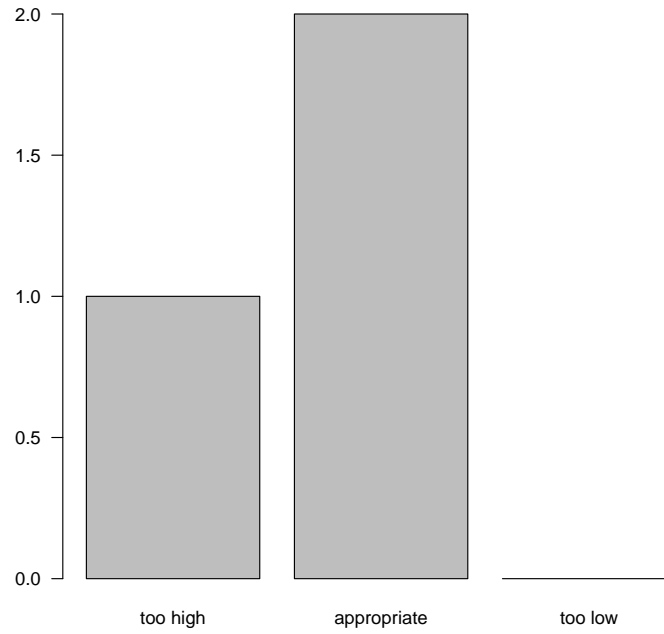

2.10 The use of media (computer presentation, blackboard, slide images) was adequate.

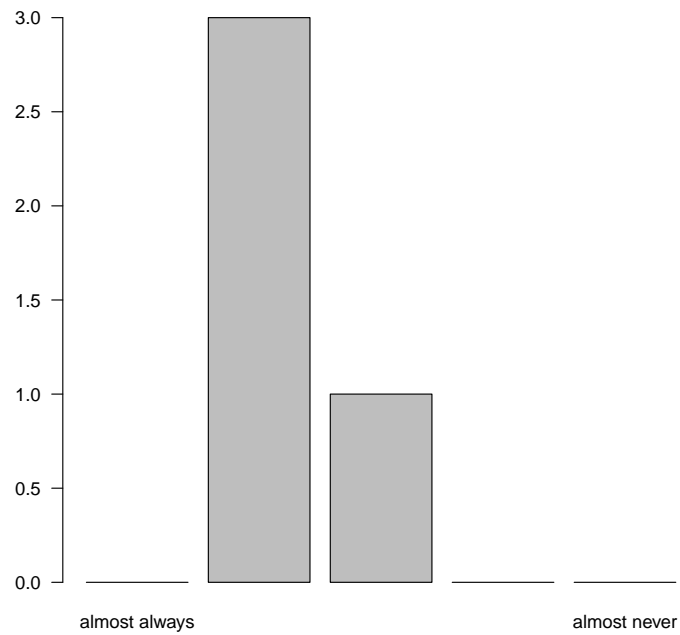

3 Practical part

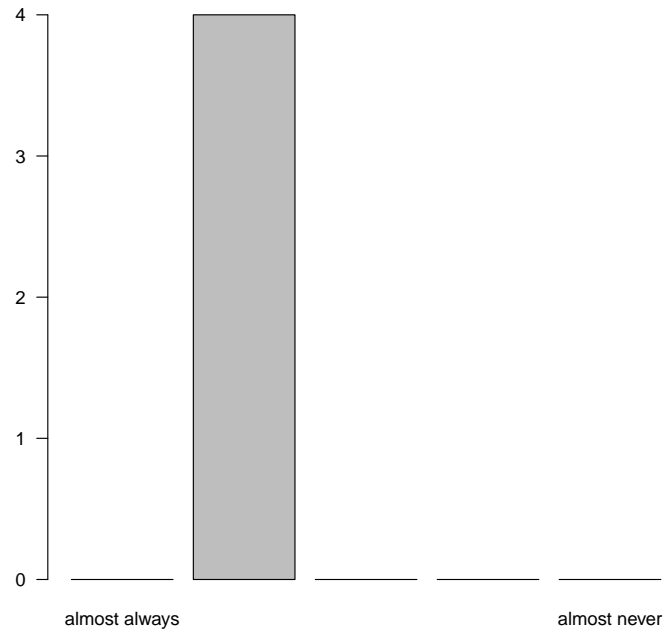

3.1 The level of the exercises was...

7 Test

7.1 I am planning the following time for exam preparation:

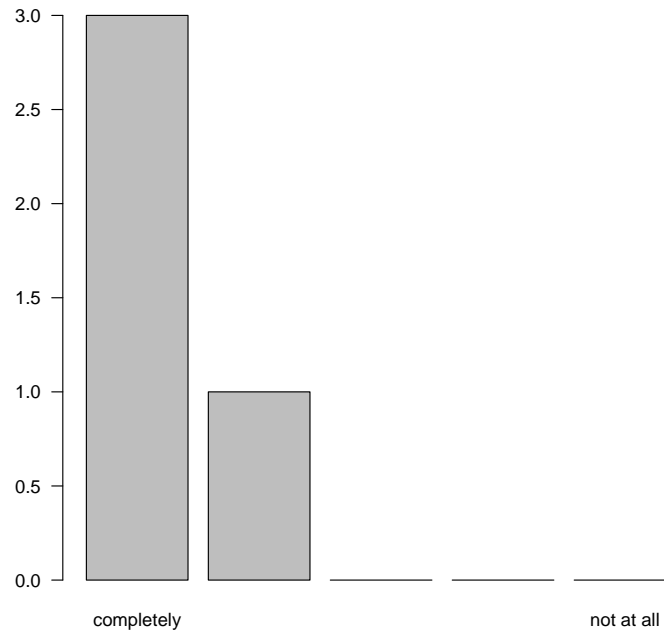

7.2 For the exams I am learning in a group.

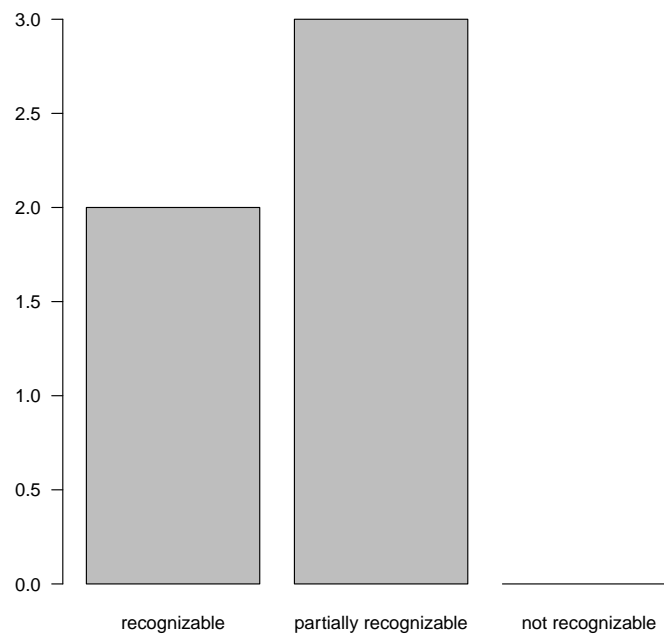

8 Course Summary

8.1 The presented topics were consistent with the courses description.

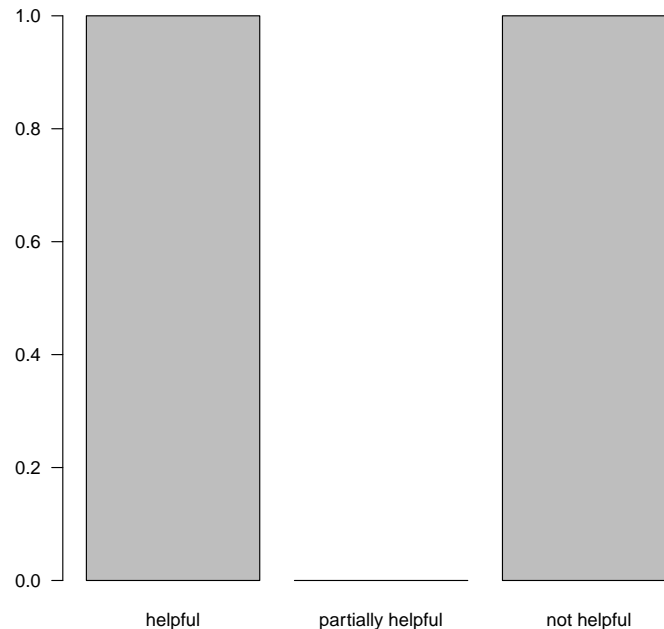

8.2 The goals of this course were...

8.3 They were recognizable/ not recognizable, because:

- put the focus from the fragments to the whole

8.4 The accompanying material (book, script, ...) was...

8.5 The accompanying material was helpful/ not helpful, because:

- I would have preferred more written material instead of the videos

8.6 The following topics should be discussed more extensively:

- *No Content*

8.7 The following topics should be discussed less extensively:

- *No Content*

8.8 I liked particularly:

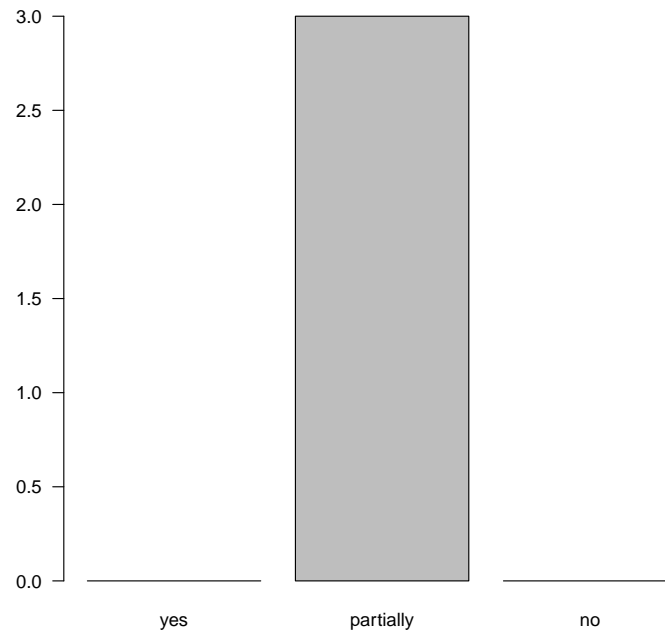

- I liked the lectures on: Fundamentals of Signals and Systems, Anatomy and Physiology of the Hearing System, Psychoacoustics, Speech Acoustics, Virtual acoustics II: Sound Field Analysis and Synthesis, Application: Automatic Speech Recognition and Text-to-Speech Synthesis, especially liked the lectures provided by the QU-Lab!

8.9 I disliked particularly:

- On the following lectures I disliked some aspects: Fundamentals of Acoustics - in my opinion too detailed for an overview, Electroacoustics - more usage of the possibilities of an online interface would be better and I found it a bit hard to follow, Sound Recording and Reproduction and Virtual acoustics I: Binaural Technology - more detailed solutions for the calculation exercises would be very helpful, Room Acoustics

and Room Simulation - better than the Fundamentals of Acoustics but a bit too detailed as well I found some of the lectures much better to follow and to understand and appropriate in the depth of content than others.

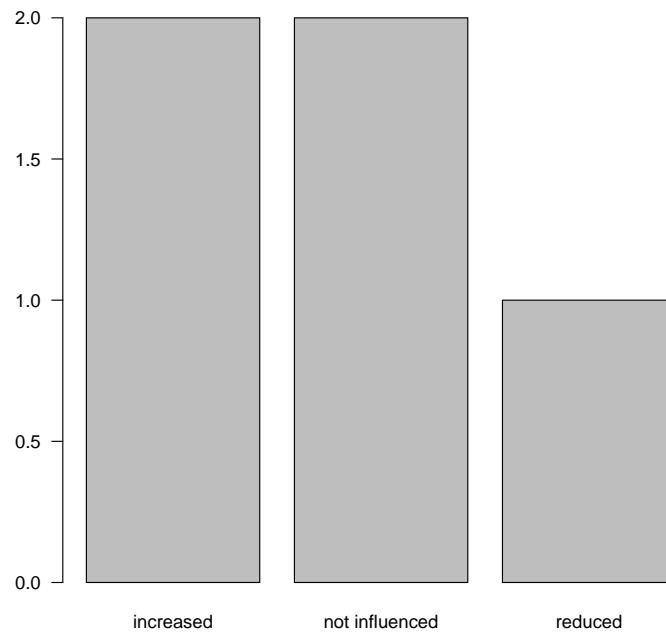

8.10 I believe that the topics are useful for my future study / work.

8.11 Further comments or requests:

- I didn't answered a lot of the questions in this form because i would have answered them quite differently for the different lectures.I think it would be really helpful if there would be a better connection between the practical exercises and the lectures e.g. Videos with a Tutor who shows and explains the solution of example exercises. Sometimes it was a bit hard too find the correct approach out of the videos.

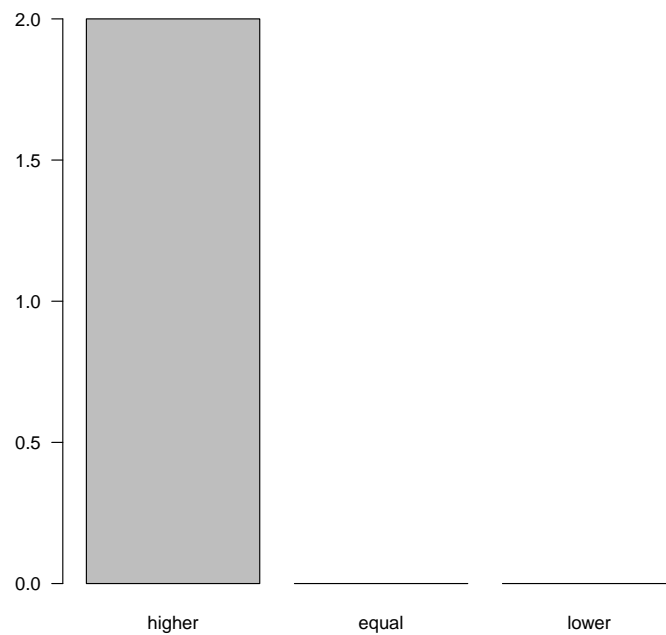

8.12 Following this course, my interest in this subject:

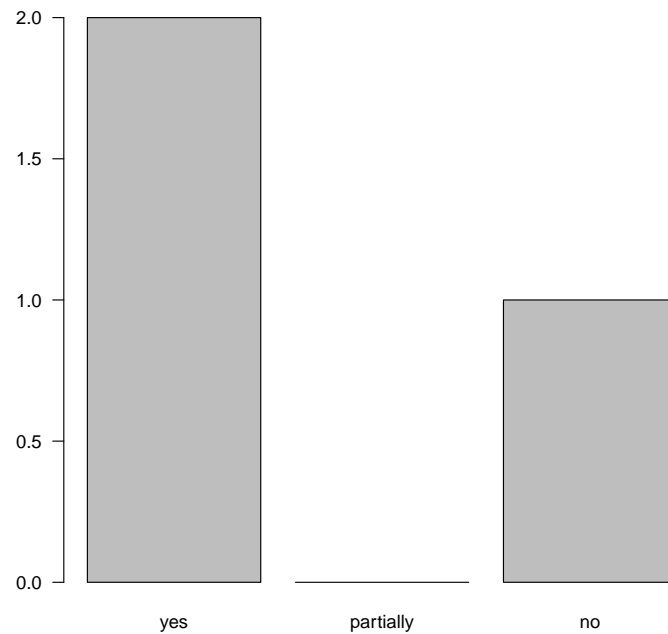

8.13 My interest increased/ decreased because:

- *No Content*

8.14 Compared to other courses the quality of this course was...

8.15 I would recommend this course.

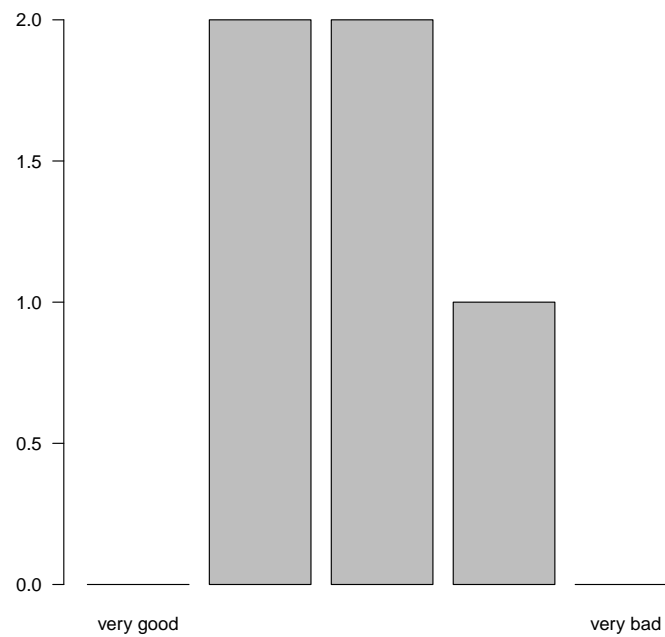

8.16 I would recommend/ not recommend this course, because:

- *No Content*

8.17 Further comments:

- In my opinion the content of this course is very interesting and if all the lectures were in style as the ones of the QU-Lab i would have given very good ratings for this course.

8.18 My overall impression of the course:

8.19 Is there something important that was not asked in this survey?

- teamwork was weak - student's problem
