7 Test

7.1 I am planning the following time for exam preparation:

7.2 For the exams I am learning in a group.

8 Course Summary

8.1 The presented topics were consistent with the courses description.

8.2 The goals of this course were...

8.3 They were recognizable/ not recognizable, because:

- Am Anfang sehr hohe Bandbreite an verschiedenen Themen (z.B. Wellengleichung, Anatomie des menschlichen Ohrs, Raumakustik), aber je weiter man kommt, desto mehr erschließen sich die Zusammenhänge

8.4 The accompanying material (book, script, ...) was...

8.5 The accompanying material was helpful/ not helpful, because:

- Handouts nicht zu allen Vorlesungen verfügbar, teilweise keine weiteren Erklärungen zu den Lösungen der Fragen unter den VL-Videos

8.6 The following topics should be discussed more extensively:

- *No Content*

8.7 The following topics should be discussed less extensively:

- Extremely detailed physics of sound (with a lot of formulae)

8.8 I liked particularly:

- All topics in Application part.
- Inhaltlich interessant, guter Überblick über alle möglichen Themen, die mit Akustik zusammenhängen, Hörbeispiele

8.9 I disliked particularly:

- Schwierig einzuschätzen, welche Inhalte (prüfungs-)relevant sind

8.10 I believe that the topics are useful for my future study / work.

8.11 Further comments or requests:

- Please do all the Mooc courses in "ISIS" platform as multimodal interaction course was done in ss18. studying a course on Edx or any other platform isn't helpful and engaging.
- 2 Topics from Prof. Weinzierl are actually one of the best Videos in whole course. Unfortunately, there's no explanation for correct answer in Exercise and homework. Some students post questions in forum and still didn't get helpful answer. I don't feel supported and didn't learn much from these 2 topics, as I wished. In the same time, staffs from some Modules provide explanation in each single choice, both right and wrong answers, which is extremely helpful. I understand that some Prof. get used to having Tutorium and Tutor to help Student with exercises. But in online Platform, we don't have that opportunity. All questions in exercise, should be based directly from Video. Student don't have other helpful sources here.

8.12 Following this course, my interest in this subject:

8.13 My interest increased/ decreased because:

- The application is very well made , with interesting topics.

8.14 Compared to other courses the quality of this course was...

8.15 I would recommend this course.

8.16 I would recommend/ not recommend this course, because:

- Content of the course are different from what usual Informatik course would have. It's good to learn new things. It's also good that we can learn from edX with our own speed. However complicate formula, process, jargon could give us big time headache. Lack of support in some topics also make situation worse.
- schwieriger Einstieg, aber wenn man im Thema ist sehr interessant

8.17 Further comments:

- I wish there would be more exercises. (with explanation for all answer) We learn by practicing, anyway.

8.18 My overall impression of the course:

8.19 Is there something important that was not asked in this survey?

- *No Content*
